

ATF TYPE F

Product Description:

ATF TYPE F is a high friction automatic transmission fluid intended for use in automatic transmissions of all Ford vehicles that were built prior to 1977 and certain models built during 1977-1980 requiring fluids meeting Ford ESW-M2C33-F specification.

ATF TYPE F is formulated on high refined mineral base stock in combination with an unique additive package to reach the following properties.

- Extended thermal- and oxidation stability.
- Superior anti-wear technology protects transmission against wear.
- Improved low temperature fluidity provides fast circulation in cold climatic conditions.
- Compatible with all common seal materials.

ATF TYPE F exceeds the following performance criteria:

FORD M2C33-F
Borg-Warner

Ford M2C33-G

Ford M2C9007-AA
