

# INSTALLATION INSTRUCTIONS

## PART NUMBER: E-0663

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

\* **FREE K&N® decal** To register your warranty, please see us online at [knfilters.com/register](http://knfilters.com/register). **FREE K&N® decal** \*  
Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modification will be required. However the following procedures **MUST** be followed to ensure the proper fit and seal of the K&N® air filter.

### INSTALLATION:

1. Remove OE filter.
2. Install K&N® filter with logo facing up. (See fig. 1)
3. Lightly push filter in until seal bumps on flange are not visible. (See fig. 2,3,4) **NOTE: Excessive force will damage filter. Make sure filter remains in position before moving on to the next step.**
4. Place lid back on air box. **NOTE: Make sure air box lid is aligned properly when reinstalling.**

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
